evert®

Smart Energy Management

One platform to optimise, automate, and reduce your energy use

- ✓ Lower your energy cost
- ✓ Real-time energy insights
- ✓ AI-driven automation

35% AVERAGE SAVINGS

Through smart load shifting, real-time pricing, and intelligent energy use.

2K+ DEVICES SUPPORTED

Control and optimize all the smart energy devices through Evert app

Supported Manufacturer

Supporting 300+ Manufacturers

Audi · TESLA POWERWALL · easee · solaredge · MITSUBISHI · GROWATT

One mobile app for all devices and brands

Works with any brand, no extra hardware required.

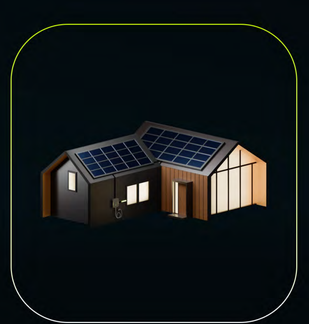
Electric Vehicles

EV Chargers

Electricity Meters

Heat Pumps

Inverter



Rooftop Solar

Switches and Plugs

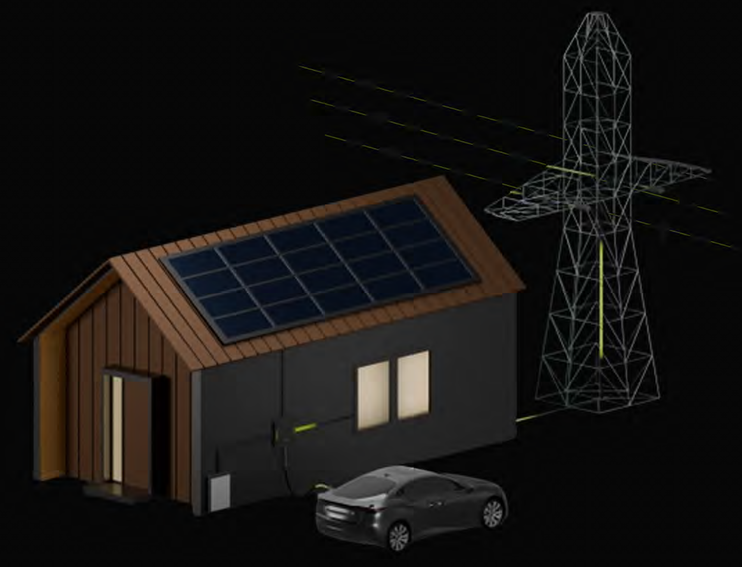
Batteries

Use Your Energy Better

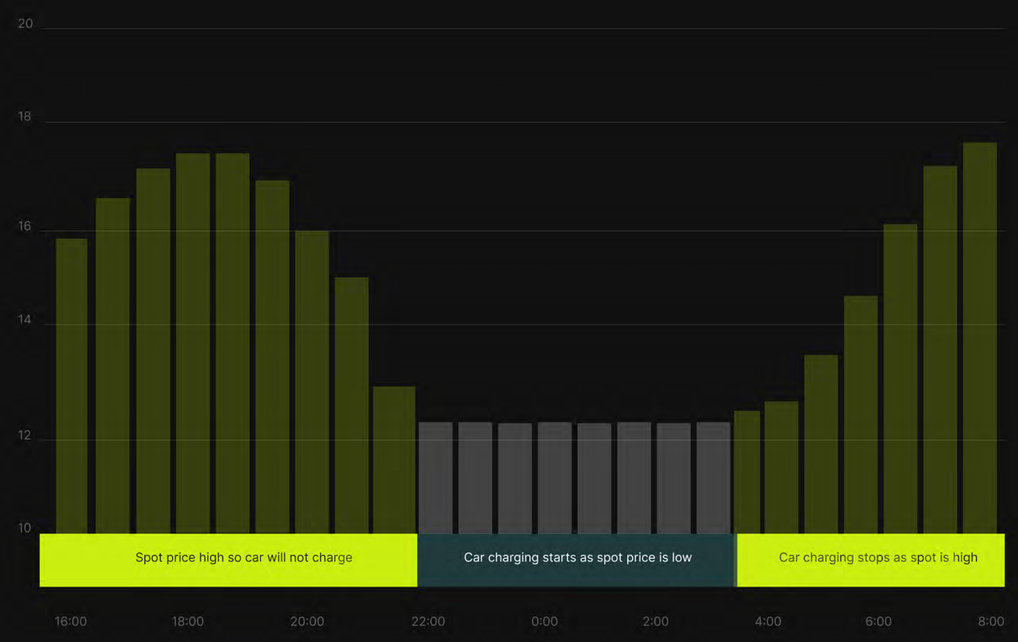
Energy Management

Evert intelligently manages your devices to boost self-consumption through efficient energy use.

Enhance your energy independence, cut down your power costs, and contribute to a greener energy future.



BATTERY CONTROL PRIORITISATION MINIMUM POWER PHASE SWITCHING



Dynamic Tariff Control

With access to the power exchange and various electricity suppliers, we shift your energy usage to the lowest-cost hours. Charge your EV or other devices when it's most affordable for you.

And when solar production is low, Evert smartly fills your battery with low-cost electricity from the grid.

CHARGING OPTIMIZER TARGET TIME PRICE THRESHOLD

evert®

Energy Monitoring

Evert provides a full overview of your home and all connected devices. Get insights into usage, self-sufficiency, costs, and load curves, making it easy to understand every detail across any time period.

KPI LOAD CURVES STATISTICS

AI Optimization

Evert uses real-time market data, solar forecasts, and intelligent scheduling to shift your energy use to the lowest-cost hours. AI selects the optimal times to charge your EV or run your devices automatically and efficiently.

Even during low solar output, AI analyzes pricing trends and usage patterns to charge your battery at the smartest, most cost-effective moments—without any manual input.
